

Responsibility Statement

QuickBite – Food Ordering Mobile Application

This is an individual assignment, so every part of the system is the responsibility of one student.

Student ID	Name	Responsibility
IT21244384	Abisheak S	Entire system: requirements and schema design; backend (authentication, MenuItem CRUD + image upload, Order CRUD + business logic, validation, error handling); React Native mobile app (navigation, screens, state, API integration); deployment on Render + MongoDB Atlas; documentation.
